

The Djembe Alchemy Learning Hub provides all sorts of resources to help you learn. From tips and techniques to notation and videos for the rhythms we learn in class.

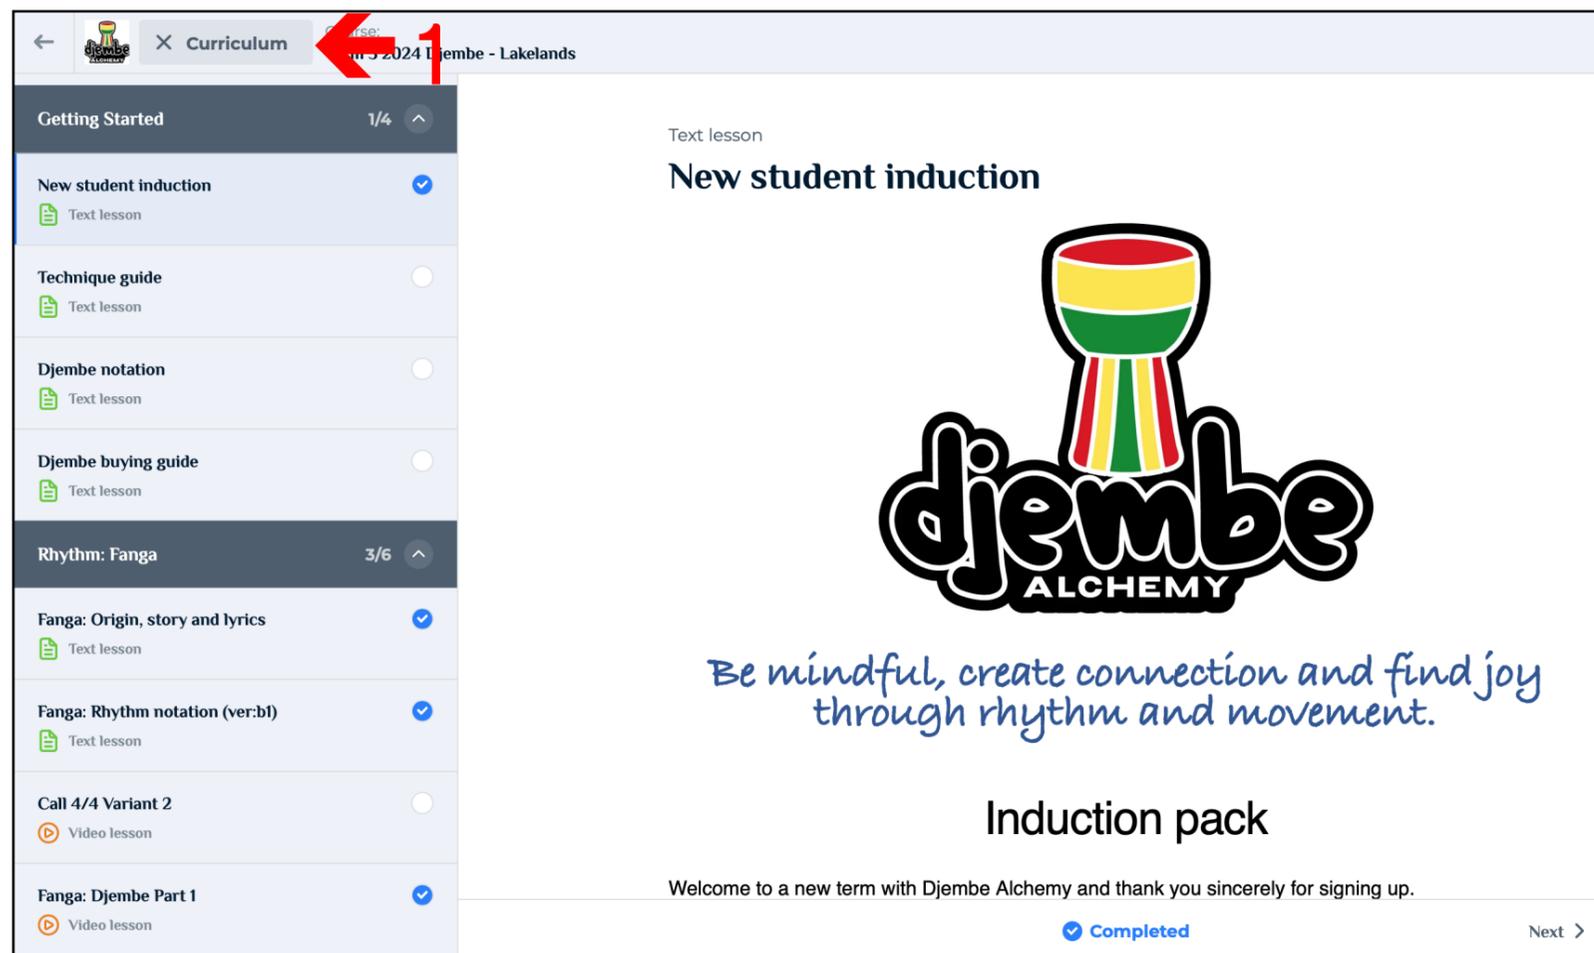

Finding the content

After you login to the Learning Hub, find your Course for the term and click Start or Continue, you should see the content area shown below.

The Curriculum Navigator

The grey Curriculum Navigator at the left shows the content that has been loaded so far for the term. So as not to distract from current material, we will only load content once it has been covered in class.

Should the grey Curriculum Navigator not be shown, then click the “Curriculum” (1) at the top left of the window to expand the navigator.

Content

The Getting Started guide has all the induction information, technique guide, reading notation guide, djembe buying guide and any other information we think may be relevant to the group.

Rhythms. Each rhythm is broken down into the lessons that we think may best aid the groups learning for that rhythm. It includes background about the rhythm, notation and videos to help you learn.
